Good day! We are conducting a study to assess the current practices, challenges, and needs related to legislative records management. Your feedback will help us evaluate how a dedicated legislative records management system can improve efficiency, accessibility, and accuracy in handling legislative documents. Your responses will be kept confidential and will be used solely for research and system development purposes. Thank you for taking the time to participate in this survey.

### 1. How do you track the status of legislative documents?

*Sample answer: we track them manually through logbooks and spreadsheets.*

---

---

---

### 2. What are the common delays or bottlenecks in your current process?

*Sample answer: searching for old documents takes time, and committee reports are often submitted late.*

---

---

---

### 3. Who are the primary users of the legislative records system?

*Sample answer: secretary, legislative staff, committee heads, and the foi officer.*

---

---

---

### 4. How are committee referrals and reports handled?

*Sample answer: we print referral letters and forward them manually to committees. Reports are returned as hard copies.*

---

---

---

### 5. What level of access should each user role have?

*Sample answer: staff can upload and edit drafts, while only the secretary can approve or finalize documents.*

---

---

---

**6. Are there documents that should only be visible to certain offices or personnel?**

*Sample answer: yes, draft ordinances and internal memos should only be accessible to authorized personnel.*

---

---

---

**7. How do users typically search for documents?**

*Sample answer: we search manually through folders or ask staff who know where the records are stored.*

---

---

---

**8. Which documents should be accessible to the public?**

*Sample answer: approved ordinances, resolutions, and session minutes.*

---

---

---

**9. Which other departments within the organization are directly involved or connected with the legislative records management system?**

---

---

---

**10. Which features of the system need improvement to better support your daily tasks?**

---

---

---

**11. What additional features do you believe should be included in the upgraded LRMS?**

---

---

---

**12. What improvements in data privacy and security should be included in the upgraded LRMS?**

---
